## SUCTION MACHINE

*Best Selling Product*

### FEATURES

- It is specially designed to absorb thick liquid such as blood, phlegm etc.,
- It can be used as aspirator in operation room, hospital or simply a health care product used at home
- This design not only can reduce the noise level but also makes it more precise
- Compact, lightweight and portable, suitable for emergency OT & home care
- Autoclavable Polycarbonate Jars

**MRP**  
**Rs.8999-/-**

### TECHNICAL DATA

Working System	Short running
Max negative pressure	≥620mmHg
Operation noise	≤65 dB
Input power	220 V
Pumping Rate	≥17L/min
Reservoir Volume	1000mL/pc, 1 piece

# VULCAN (AC & DC)

## Portable Phlegm Suction Unit

**Special Features :** This product can function under any of the power source: Alternating current & direct current (batteries). It is mostly used in situation where power source are lacking, such as on vehicles or in the outdoors, Ideally suits for ambulance .

### FEATURES :

- Table Top Suction Unit with 5 Hours Battery Backup
- It is specially designed to absorb thick liquid such as blood, phlegm etc.
- It can be used as aspirator in operation room, hospital or simply a health care product used at home
- This design not only can reduce the made noise level but also makes its more precise
- Compact, lightweight & portable, suitable for emergency & outside use
- Autoclavable Polycarbonate Jars

MRP  
Rs.13000/-

### TECHNICAL DATA :

Working System	Short running
Max Negative Pressure	>620mmHg
DC Power Supply	12V
Input Power	44VA
Pumping Rate	> 17L/min
Battery Backup	5 hours
Reservoir (Polycarbonate jars)	1000mL,1 Piece

# Marshal (GYPSY)

## Electric Suction Apparatus

### Features

- Trolley Type - Flexibility - Easy mobility - Double Jars
- It is a new design with lovely powder coated finish on MS.
- This model is designed in such a way that it could be easily transported from one place to another since the antistatic castors move without friction.
- It is supplied with 2X1000ml polycarbonate jars neatly calibrated, to prevent overflow into the motor NRV is provided.
- Nevertheless all precaution must be taken to have the NRV thoroughly cleaned after every use.

## Technical Data

Max negative pressure	≥630 mmHg
Noise	≥65dB
Power	≤180VA
Pumping Rate	≥20L/min
Reservoir capacity	1000mL/pc, 2 pieces/PC Bottles

## MARSHAL

Suction Machine

**SMM 01**

## MARSHAL(FORTIES)

Suction Machine

**SMMF 01**

### Features

- Suction unit is a product with oil-free lubrication pump
- It can be used as aspirator in operation room, hospital or used at home
- It is specially designed to absorb thick liquid such as blood, phlegm etc.,
- High negative pressure, large flux & low noise
- It adopts advance overflow-protection design, which can prevent pus & mucus from leaking into the machine since it is provided with an NRV
- Compact, lightweight, portable & Autoclavable Polycarbonate Jars

### Technical data

#### Marshal

Power Voltage	AC220V+22V,50Hz+Hz
Max negative pressure	≥700mmHg
Operation noise	≤65 dB (A)
Input power	180VA
Pumping frequency	≥26L/min
Reservoir capacity	2500mL/pc, 2 pieces

#### Marshal(Forties)

Power Voltage	AC220V+22V,50Hz+Hz
Max negative pressure	≥700mmHg
Operation noise	≤65 dB (A)
Input power	180VA
Pumping frequency	≥40L/min
Reservoir capacity	2500mL/pc, 2 pieces
